NEW

SKL makes tracking easier for you. We are pleased to introduce our new serial number tags. You will notice each unit has its own tracking reference number tag brazed on. This method will give easy access to the information required in order for your warranty to be respected such as production date, customer identification and initial billing date.

We strongly recommend that you include the serial number on your bill of sale in order for your one year limited warranty ** to be honoured by SKL. Furthermore, we have included in this mailing a copy of our [Return Policy](#) (warranty) which can be easily accessed by you at all times in order to save precious time for all parties when a unit has a defect.

*** The following conditions "Return Policy" must be respected in order for your warranty to be honoured.*
